

# AZIMUTH STERN DRIVE 35/105 TERMINAL SUPPORT/ESCORT TUG

#### **BRIEF DESCRIPTION**

This tug is a fully automated stern drive tug designed in response to a worldwide demand for highly efficient class of ship-assist/oil and gas terminal tug. Highly maneuverable, with two azimuth thrusters, this tug is dedicated for maximum efficiency in the performance of ship-handling, tank escort and related terminal support activities services. The tug is equipped with two completely independent escort towing winches forward allowing to switch from towing to pushing within seconds and heavy bow fendering for ship-assist and escort work; on the main deck aft is fitted a double drum waterfall type winch for anchorhandling and deep-sea towage purposes. Each drum is equipped with a complete tow line giving redundancy.

Thanks to the very high bollard pull performance and to the fact that it is the first application of a FiFi II equipment on such kind of vessel, this tug represents a very leading case in this market.

Although this vessel is intended as dedicated terminal support/escort tug for the offshore oil and LNG off-loading tankers, this tug can be deployed for these services too:

- -Tanker escort service
- -Fire –fighting activities
- -Anchor handling/supply activities
- -Antipollution services
- -Salvage operations
- -Transportation of spares/cargo to and from the offshore terminal

### MAIN CHARACTERISTICS

Length overall: 35,00 m.

Beam overall: 14,00 m.

Depth main deck midship: 6,00 m.

Loaded draft: 5,50 m.

Gross register tonnage: 733 ton.

Net register tonnage: 219 ton.

#### REGISTRATION

Type: Double Azimuth Stern Drive Offshore Terminal Escort Tug

Owner: Fratelli Neri S.p.A.

Year built: June 2009

Builder: Astilleros Gondan S.A. (Spain)

Flag: Italian
Port of registry: Genoa, Italy
Call sign: IIOL2
IMO number: 0443748

Call sign: IIOL2
IMO number: 9443748
RINA number: 85378

Classification: R.I.NA. C ★ HULL ★ MACH, TUG, UNRESTRICTED NAVIGATION

AUT-UMS, OIL RECOVERY SHIP, FIRE-FIGHTING SHIP-2, WATER

SPRAYING, SALVAGE TUG, ESCORT TUG, IW, SYS-NEQ 1

#### **PERFORMANCE**

Maximum speed: 13,50 knots Economic speed: 11,00 knots Bollard pull ahead: 110 m. t. Bollard pull astern: 104 m. t.

Steering bollard pull: 120 m. t. at 10 knots

#### PROPULSION - MACHINERY

Main diesel engines: 2 MAN 9L27/38, MCR 6120 kW at 800 rpm each; total 8.300 Hp

Fuel oil consumption at max continuous rating: 182 g/kWh

NOX Certificates and EIAPP Certificate According to MARPOL 73/78

Azimuth propellers: 2 SCHOTTEL SRP 3030CP (diameter 3000 m)

Auxiliaries generators: 2 MAN-LINDEBERG 150 kW, 190 kVA – 380V – 50 Hz each

Emergency generator: 1 MAN-LINDEBERG 60 kW, 75 kWA, radiator cooled

Bow thruster: 1 Veth 150 kW hydraulic driven

#### **ACCOMODATION**

Officers: 2 cabins with one berth + 2 cabins with two berths

Crew: 1 cabin with four berths

Passengers: 1 cabin with two berths (the regular crew being 5, five additional bunks

remain available for charterer's personnel, except during tug's crew

changes)

Every cabin has its toilet with sanitary and shower.

Galley, messroom, freezing store, dry store, sanitary spaces, sickbay, changing and drying room, laundry, stores, engine control room sound and dust proof and fully equipped office.

All accommodations are fully air-conditioned.

### TOWING AND SPECIAL EQUIPMENT

1 Heavy duty Rolls-Royce Bratvaag Waterfall type double drum towing winch on the aft deck

-Upper Drum:

-Rendering: -1<sup>st</sup> speed: 80 m. t. at 10 m/min. on 1<sup>st</sup> layer

-2<sup>nd</sup> speed: 28 m. t. at 25 m/min. -3<sup>rd</sup> speed: 8 m. t. at 52 m/min.

-Brake hold: 250 m. t.

-Wire capacity: 150 m. of steel wire or steelite rope of 72 mm. diameter

-Lower Drum:

-Rendering: -1<sup>st</sup> speed: 80 m. t. at 10 m/min. on 1<sup>st</sup> layer

-2<sup>nd</sup> speed: 28 m. t. at 25 m/min. -3<sup>rd</sup> speed: 8 m. t. at 52 m/min.

-Brake hold: 250 m. t.

-Wire capacity: up to 600 m. of steel wire or steelite rope of 72 mm. diameter

2 Independent combined Rolls-Royce single drum escort towing winch on the forecastle deck

-Duty: 1<sup>st</sup> speed: Haul: 100 m. t. at 9 m/min.

Rendering: 150 m. t. at 11 m/min.

2<sup>nd</sup> speed: Haul: 70 m. t. at 12 m/min.

Rendering: 110 m. t. at 14 m/min.

3<sup>rd</sup> speed: Haul: 30 m. t. at 24 m/min.

Rendering: 55 m. t. at 28 m/min.

4<sup>th</sup> speed: Haul: 9 m. t. at 58 m/min.

Rendering: 15 m. t. at 70 m/min.

-Brake hold: 420 m. t.

-Wire capacity: 300 m. of 78 mm. diameter Dyneema rope

Bow fender: bore cylindrical upper and W block type under system; max pressure at full ahead

28,5 t. x sqm at any contact point

After deck: 5 t. x sqm load capacity with space for 3 x 20 feet ISO containers

Towing hooks: 2 of 110 t. SWL; one on the foredeck and one on the aft; local and

remote controlled

1 Towing pins 150 t. SWL, remote operated

1 Stern roller 150 t. SWL

1 Hydraulic capstan of 5 t. pull

1 Hydraulic deck crane, max. lifting capacity 1,8 t. at 18,30 m. / 12,5 t. at 4,00 m.

### TANK CAPACITIES

Fuel oil:	301 m <sup>3</sup>
Water:	69 m³
Lub-oil:	14 m³
Sewage:	$7 \text{ m}^3$
Foam:	7 m <sup>3</sup>
Rec-oil:	146 m³
Dispersant:	22 m³
Foam:	45 m³

## **ELECTRONICS**

- -1 radio system compliant with GMDSS (A1+A2+A3) rules including:
  - -2 INMARSAT STD C
  - -2 VHF with DSC 3001
  - -1 NAVTEX

- -3 Portable VHF for GMDSS
- -2 Satellite console standard C
- -1 SSB for GMDSS with DSC
- -1 ARPA radar 23,1" LCD TFT
- -1 ARPA radar 15" LCD TFT
- -2 DGPS Navigator
- -1 Trasponder
- -1 Echo sounder
- -1 Speed log
- -1 Autopilot
- -1 Anemometer
- -2 Gyrocompass
- -1 AIS
- -1 Barometer
- -1 Thermometer
- -1 Inclinometer
- -4 Video Surveillance remote controlled cameras monitored from wheelhouse
- -Internal communication system

## LIFE-SAVING AND RESCUE EQUIPMENT

- -2 x 12 persons inflatable liferafts
- -1 x SOLAS approved crane
- -1 x ZODIAC rescue-boat (SOLAS IMO 47 compliant) with 25 hp four stroke outboard engine
- -Rescue zone each side
- -2 scambling nets: one for each side

#### FIRE-FIGHTING SYSTEM CLASS FI-FI 2

- -2 x stainless steel monitors of 7200 m<sup>3</sup>/h. capacity each at 220 m. length
- -1 x stainless water/foam monitor of 600 m³/h. capacity
- -2 x fire-fighting pumps of 3749 m<sup>3</sup>/h. capacity
- -Foam system of 600 m<sup>3</sup>/h. capacity
- -Deluge system: self protecting water spray system

### **SALVAGE EQUIPMENTS**

- -2 x Grundfos submersible pumps of 277 m³/h capacity each at 29 mt.
- -2 x Breathing Apparatus for divers
- -2 x Gas masks with filter
- -4 x Water stops of approximately 1 x 2 mt
- -1 x Complete set of equipment for flame cutting with 25 mt of flexible piping
- -2 x Lamps for underwater operation

- -4 x Tackles with lifting capacity from 1 to 3 tons.
- -4 x Hydraulic jackets with lifting capacity from 10 to 20 tons.

# **OIL RECOVERY EQUIPMENTS**

- -1 x Skimmer Float Discoil of 50 m<sup>3</sup>/h
- -1 x Oil Boom Reel
- -1 x 200 mt of Oil Booms
- -1 x 150 mt of absorbing booms
- -2 x Dispersant booms of 6,50 m. length and 900 lt./h. capacity
- -1 x 22 m<sup>3</sup> of dispersant on board
- -2 x Air Portable Inflator
- -Chains
- -Anchors

### **OTHER**

- 1 x Bilge separator
- 1 x Fuel separator
- 1 x Oil separator
- 1 x Waste water treatment
- 2 x Air compressors
